

## FISH KILLED BY THE RAINES BILL

No Chance Remains to Him Now for the Gubernatorial Nomination.

The Speaker's Mad Effort to Jam the Measure Through Has Been His Undoing.

Comptroller Roberts Another Sacrifice on the Altar of the Odious Piece of Legislation.

HIS FATAL REFUSAL TO FIGHT IT.

Politicians at Albany Are Altogether at Sea Now as to Who is Left of the Big Field That Started a Few Weeks Ago for the Prize.

Albany, N. Y., March 17.—Politicians are willing to credit the Raines bill with possibilities for inflicting mischief, for they have given up counting the chances of success for the time being and are speculating as to what it has already done. Among those who stand closest to the throne it is very generally believed that thus far this particular measure has killed off at least two of the most promising Republican candidates for Governor. They are Speaker Fish and Comptroller Roberts.

After what happened during the long and turbulent legislative day in the Assembly, when everything from the constitution to the ordinary rule of courtesy was violated by the Speaker in his determination to show what he could do in the way of jamming the bill through, it is conceded that Hamilton Fish is not the man to run as the Republican candidate for such an important position in such an important year. In his efforts to get votes the Speaker is believed to have sacrificed the long enemies in important parts of the State. The Erie County delegation say openly that he insulted them. The Kings County men made practically the same assertion on the floor of the Assembly when the bill was on its final passage. There are many others who resent the actions of the Speaker at the particular time, and every one of these men will be out against him when he opens up his campaign for the Governorship.

O'GRADY'S HANDS TOO FULL TO HELP.

It was asserted this afternoon by an observant politician from Central New York that he did not believe Speaker Fish would be able to get the delegates from a single county outside of his own, which is Putnam. When it was intimated that there might be another understanding between Mr. Fish and Mr. O'Grady about securing the Central New York delegates, and that possibly Mr. Nixon would help out again with Western New York, it was remarked that both these Assemblies would have enough to do to cut their own corn this Fall, on account of their action on the Raines bill when helping out Fish, without undertaking to deliver blocks of delegates for his candidacy for Governor.

Judging from the expressions of the newspapers of the districts which both O'Grady and Nixon represent, and from the remarks of some of their more important constituents who have been recently, this is quite so. It must also be remembered in speaking of the gubernatorial ambition of Mr. Fish, that he now has to make his canvass as an out-and-out machine candidate. It is not possible for him again to deceive Western New York by pretending to be an independent Republican, as he did when he first ran for Speaker. At that time his personal friend Mr. Nixon was offered up as a sacrifice, and the deal that was then made not only kept the handsome son of Chautauque out of the leadership, but, coupled with his recent advocacy of the Fish methods of constraining the rules of the Assembly, is very likely to keep him out of the Speakership if there is ever a chance of his getting it.

Altogether it was a bad day in the Assembly for aspiring Republican politicians, and necessarily Speaker Fish will have to bear the burden of the blame for the manner in which the passage of the bill was conducted. It has already been stated that Governor Morton felt compelled to file his protest against such drastic methods of legislating, and here it is believed that the people will file theirs if ever those who had a hand in it ever appear as candidates for political favors. It is the intention of the Democratic managers should Mr. Fish secure the Republican nomination after all, to print as a campaign document a lively picture of the Assembly chamber as turned into a jail by his orders.

ROBERTS' CASE QUITE AS BAD.

Brief mention need only be made of the case of Comptroller Roberts, although he was possibly much nearer to securing the Republican nomination for Governor than was Speaker Fish. The strength of the Comptroller lay in the natural pride of Western New York in having a candidate with such a clean record. It was at first supposed that he was defeated in his ambition to go to the National Convention of his party because of his recent change from an independent to a pronounced machine man. But this has been by the party managers themselves, and it has been asserted that Mr. Rogers was put aside by the voters because he declined to make a stiff fight against the Raines bill from the time it gained its first appearance in the Senate. It is averred that his constituents asked this and that he declined on the ground that such a course would be unbecoming his position as a public officer.

However this may be, the defeat of Comptroller Roberts in his own district and his inability to get the nomination for national delegate is without a doubt a fatal blow to his candidacy for the Governorship, and his closest friends are sorrowfully admitting it. There is genuine regret among the upper classes of the Republican, at the sad fate of the Comptroller, as his fidelity to the Civil Service rules and his general adherence to business principles in running his office has made him highly respected among all those who are not looking for offices.

LEXOW, TOO, OUT OF THE RACE.

The question now naturally arises as to who is left of the big field that started a few weeks ago in the race for the prize. One by one, from Lexow to Odell, they have dropped out for one reason or another, until now even the leaders in the race have disappeared, or rather, they are discredited. Beyond a doubt Governor Morton will be a dangerous candidate if he decides to please Mr. Morton by trying for another term in Albany society, should the National Convention satisfy him that the air of Wash-

ington is not healthful. But if the strain of the canvass should incline the Governor to a trip abroad after he leaves St. Louis, then there is no stronger candidate for the executive chamber than Lieutenant-Governor Sexton. His integrity and fairness has made him a place in the good graces of the people, and his recent declaration of political independence has not hurt him any in places where majorities are rolled up on an election day.

Senator Ellisworth is also a candidate in as quiet a manner as possible, although he is not known to the majority of his party. There is also a great probability that there will be a lively card horse developed after the June convention.

WAS SEIZED IN COURT.

Secret Service Men Arrest an Alleged Counterfeiter During the Trial of Others.

The trial of Nicola Toronto, Thomas Russo, John Rosa and Antonio Langano, charged with circulating counterfeit \$5 silver certificates, was resumed before Judge Brown, in the Criminal Branch of the United States Circuit Court, yesterday. Frank Digeroglia, who before the opening of the case pleaded guilty to two indictments accusing him of passing some of the bogus bills, was called as a witness for the prosecution. The defense objected to his testimony being taken, and after considerable argument he was allowed to proceed. Digeroglia described his transactions with Toronto and Rosa, but his memory as to specific dates and dates was so poor that he was withdrawn by the prosecution.

Teresa George, of No. 33 Oak street, and Thomas Solito, of No. 233 Elm street, testified that Rosa had swindled them with \$5 counterfeit bills, and that the transactions were witnessed by Secret Service Agents Bagg, Flynn and Esquith.

Secret Service Agent Nicola Noddi said he had formed the acquaintance of the accused, and expected to work with them in the good graces of Toronto, the alleged leader of the band. He was then admitted into the room, in Roosevelt street, and described to the jury the inside operations of the alleged counterfeiters.

While the trial was in progress one of the agents noticed a man who was in the court room apparently deeply interested in the proceedings. When he saw the agent looking at him, he ran out of the room, but when he reached the corridor he was grabbed by two Secret Service men and arraigned before Commissioner Shields.

The man, who was described as being one of the spurious \$5 certificates, and the detectives told the Commissioner that they had been searching for him since January. The agents were sure that he was associated with the Toronto-Langano gang. The prisoner gave his name as Nicola Bilford, and said he lived in Cherry street. He protested that he was innocent, but was held in \$2,500 bail until to-day for examination.

EVILS OF MAMMON WORSHIP.

Old Trinity Crowded at Evangelist Aitken's Sermon.

Every seat in Old Trinity was filled at noon yesterday, and hundreds of persons were standing at the rear of the church when Evangelist Aitken began his sermon on "A Warning to Mammon." Although his words were to be devoted especially to men, hundreds of women were present, but they had to take seats in the side aisles. The evangelist said that there was a war in store for the people, a war between Mammon and the people. The deepest war would eventually come to the business man who impoverished himself by the worship of Mammon, and women and children to weep. He did not mean to discourage honest and legitimate business, but he did mean to warn against Mammon, the god of money, which he said, "leads men into many sins. It makes men liars, robbers and thieves. It destroys their self-respect and ruins their souls. It creates a world of crime, and it is a war that can be traced back to the love of money is too long to be enumerated in an ordinary discourse."

NORMAN SUEDED FOR SLANDER.

Colonel Asa Bird Gardiner Thinks He Has Been Maligned.

John G. Norman is the defendant in a suit for \$20,000 for slander, begun in the Supreme Court by Colonel Asa Bird Gardiner. The Board of Aldermen started an investigation last November into the trouble over the custody of the flags which on Independence and Emancipation days were placed over the stone Block House in Central Park and at the Battery. They referred the question to the Committee on Landmarks and Places of the Board of Aldermen and the Park Department for further investigation. Colonel Gardiner appeared before the committee of the Board of Aldermen and the society of the War of 1812 at the public hearing held November 21, and read an affidavit purporting to have been executed by Norman. Mr. Norman declared that the affidavit was outrageous. He said Colonel Gardiner had read what he had never said, that he had been made a fool of, and that the affidavit was fraudulent. It is upon this statement that Colonel Gardiner has brought suit.

GUARDING THE FRONTIER.

Sentinel Who Exclude Contract Laborers and Paupers at El Paso.

Contract Labor Inspector Louis Adams, who was transferred to El Paso, Tex., last October returned yesterday to his post in New York. Fred Hampton, son of General Wade Hampton, who took McAdams' place in New York, is en route to El Paso. "The principal work of an inspector at El Paso," said Mr. Adams, "is to watch the two bridges spanning the Rio Grande from El Paso to Juarez. We have been capturing seventy-five Mexicans per month who were attempting to cross the border in contract to work for the Texas Pacific, Southern Pacific or Santa Fe Railroads. Paupers have been made a fool of, and at least twenty Chicanos were sent back every month."

ATTRACTIVE SHOW WINDOWS.

Women Find Interest in the Suits Shown by James McCreery & Co.

The sidewalk in front of James McCreery & Co.'s store, at the corner of Broadway and Eleventh street, is continually crowded with groups interested in examining the suits displayed in the windows. The suits are from cloth made in the firm's own mills and were designed by their own artists. The finest is a delicate white satin, cut decollete, with white pearl trimmings. It has a peculiarly rich effect. The other is a dinner dress of Persian-pattern silk, a beautiful afternoon street costume, finished with costly garniture, and several others almost equally fine.

These dresses are said to be the equal of the best made in France, and the firm feels not only proud of them, but on their own account, but because it shows the development of the country in these lines.

Bids Invited for City Bonds.

Comptroller Fish has called for bids on \$4,300,814 gold bonds and stock, bearing interest at 3 per cent, to pay for various city improvements, including \$475,000 for repaving streets and avenues, \$650,000 for constructing the new Third Avenue bridge, \$200,000 for an extension of the Metropolitan Museum of Art, \$250,000 for the Harlem River Drive, \$171,450 for a new site and building for the College of the City of New York, \$86,350 for new stock for the Street Cleaning Department, \$300,000 for the purchase of the College of the City of New York, \$175,000 for the sanitary protection of the Croton water shed, \$1,000,000 for the purchase of the Croton water shed, and \$542,414 for new schools and school sites. The bids are to be opened on April 2.

The leading real estate auctioneers are using the Journal columns and are getting a large rate is 15 cents per line. Unlimited display is permitted. Try The Journal.

## NATURE'S WONDERS AT THE GARDEN.

Photographic Powers of the X Ray Illustrated at the Big Sportsmen's Exposition.

In Contrast with This, Indian Guides Show Their Simple Method of Calling Moose.

TROPHY FOR TENNIS PLAYERS.

In Concert Hall is Unfurled the Voluminous Bunting of the Composite Yacht Club Pennant.

The Sportsmen's Exposition at Madison Square Garden was well under way yesterday, and at both the afternoon and evening sessions there was a large crowd examining the exhibits.

One of the most interesting features was the first public exhibition of the powers of the X ray, by Chief Electrician Martin. He successfully photographed the contents of a pocketbook through a sheet of vulcanized rubber an eighth of an inch thick. This afternoon an effort will be made to photograph through a block of wood.

The Indian camp, with its papoose, is attracting considerable attention. Two Bears' squaw is the most retiring disposition, and remained hidden from view in her tent. She is of such a bashful nature that she will not eat in the dining-room of the hotel where she is stopping.

Morgan Marshall, one of the exhibitors, made a great hit with his souvenirs, which were green clay pipes. A number of the Ancient Order of Hibernians hovered around the stand all the evening.

In the loan and trophy room the Sportsman's Association's Lawn Tennis Cup—a handsome and massive specimen of the silverware of the day, given by the Sportsmen's Association, to be competed for during the coming season by the tennis players of America—was placed on exhibition. It is valued at \$500.

A working model of a powder mill was displayed, and all the processes of manufacture of gunpowder fully shown.

Wing shots from various parts of the country were much interested in a double-barrelled repeating shotgun which was exhibited there. The inventor, W. H. Osterman, a young Californian sportsman, has been giving exhibitions of the rapid-firing arm, which fires four shots in less than two seconds. The gun is handsomely made, very simple in mechanism, and appears to be quite as strong as any of the double-barrelled shotguns in general use.

The half-dozen guides from the hunting region of Maine attracted a large crowd about their cabin and their illustration of their mode of calling moose to destruction at the hands of sportsmen was greatly enjoyed. The guides are great characters and one of them tried for five minutes to light his pipe from the electric light globe, which was suspended from the roof of their log hut. They are also great at "yarning," being veritable Munchausens at the art.

The Composite Yacht Club pennant, a mammoth piece of bunting composed of the flags of all the prominent yacht clubs in America, one hundred and fifty in all, was unfurled in the concert hall and stretched all across the room. This is the pennant which attracted so much notice at the World's Fair.

The coast-pocket fishing rod and the marine velocipede, or tandem bicycle boat, were admired all day by scores of sportsmen. The boat is especially adapted to shallow streams.

A number of prominent people were present during the evening, among whom were noticed: Percy Millrath, ex-Consul to Italy; Cleveland D. Fisher, James N. Wells, T. B. Stewart, Julian Rex, ex-Mayor Grace, Adon Smith, Dr. Cantle, of Hong Kong; J. Parker Whitney, Colonel Miller, William C. Whitney, J. T. Heckacher, Henry E. Abbey, T. A. Havensmyer, Dr. M. J. Webb, Dr. St. John, Hugh H. Baxter, Charles Mathews, Father Ducey, E. R. Ladew, H. B. Pethica, C. de F. Grant, Captain A. W. Money and Edgar Murphy.

Gave It to Another Feast.

Kaplan & Wallace, cloak manufacturers at No. 130 Greene street, whose troubles were reported yesterday, gave a chafet mortgage for \$2,200 to Simon Feist, of Feist Bros., and not to Max Feist, as mentioned in the report. Mr. Max Feist said he has had no connection whatever with the case and knew nothing about it until he read it in the papers.

Have You Had

Any adequate idea of the growth of the business of bottling Londonderry Lithia Water? Nearly a century ago the New Hampshire farmers took

A Drink of

Water from the Spring, famous even then, when they had a touch of rheumatism. To-day the name of

"Londonderry"

is known in every State in the Union, and in every country of Europe; orders come from all over the world. There is no other

Lithia Water

Containing so large an amount of Lithium combined supremely by Nature with other substances that act beneficially on the system. This water will clear the blood of uric acid, AND CURE ALL DISEASES WHICH URIC ACID CAUSES.

To-day

Nearly a million bottles a month of this finest of Table Waters is sold. It is sold to people of wealth, culture and education. They are not easily deceived. If the water was not good would they buy in such quantities?

New York Office, 253 Broadway.

## WILL MANAGE THE STRIKE.

Locked Out Garment Makers of Chicago Will Have Meyer Schoenfeld, of This City, for Their Chief.

The reports of new strikes of garment workers in Chicago aroused intense excitement yesterday at the headquarters of the United Garment Workers at No. 28 Lafayette place. A dispatch was received in the forenoon to the effect that all the tailors in Chicago, numbering 10,000, had decided to strike for the abolition of the task work system and the substitution of the weekly wage and ten-hour work day system instead.

This is the carrying out of the plan of the United Garment Workers when the great strike against the task work system took place last Summer in this city, and was won by about 15,000 garment workers. The movement is to be extended to all the cities where the United Garment Workers have control.

As soon as the dispatch was received from Chicago, Meyer Schoenfeld, who managed the strikes here, was sent to Chicago to take charge of the strike in case the tailors carry out their decision. The different branches here have been notified not to send any tailors to Chicago while the strike lasts.

A number of garment workers who were sent to Chicago to replace the strikers were induced not to go to work by the union there, and returned to this city yesterday. They claim to have been engaged by Sigmond Rosenberg, whose office is at No. 10 Stanton street, and called on that gentleman yesterday, demanding a return of fees paid to him. Rosenberg refused, and they left vowing legal vengeance.

QUARTERS FOR THE RECORDS.

Register Sohmer and the Grand Jury Considering Plans.

Register Sohmer said yesterday that some arrangement would soon be made for the safe and convenient storage of the public records, now to a certain extent unprotected through lack of facilities in the Register's office.

A committee of the March Grand Jury, consisting of Messrs. Hermann, Stewart and Hoffman, called on the Register Monday and inspected the building and condition of the records. The committee expressed surprise that the legal profession had not already protected against the continued storage of public records in a building so dilapidated and unsafe as the present structure.

The committee will report upon the advisability of the erection of a more suitable building.

Register Sohmer suggested yesterday that a couple of floors in either the Stewart or American Trust Society buildings would furnish ample facilities, but would not admit that arrangements for this purpose had already been perfected.

In regard to the closing of the Register's office at 4 p. m. Monday, and at 12 noon on Saturday, the Register said that it was considered necessary by the fact that there was but one man in the building after the hours of the day, and that it would be very easy, if the building were open to the public, for persons to slip out valuable records.

PASTEUR BOYS ALMOST CURED.

Pearlman Will Probably Be Discharged Sunday.—The Men Not Heard From.

David Pearlman, the bright little boy, who was supplied by the Journal with clothing and other comforts of life, was treated again yesterday at the Pasteur Institute for the dog bite he received ten days ago. The twelve boys who were bitten at the same time call frequently at the institute, but it is not so difficult to supply them with ready money. They are making selections, as now a choice of all sizes and kinds may be had. Acids are never used by us to produce an antique appearance, and therefore you may depend on the wearing quality.

ANY SOAP IS SOAP. But grades differ. You want the best. You always will be satisfied with good, never with poor soap. Therefore, use "DREYDOPPEL SOAP" for all purposes. Dreydoppel Soap renders clothes beautiful, white, sweet, beautiful for wear. The best for bath, toilet, hair-shampoo, etc., etc.

ANY GROCER CAN GET IT FOR YOU.

THE BEST BECAUSE IT IS.

FIRST PRIZE WORLD'S FAIR, 1893.

Use Quick Gloss Starch.

NO BOILING.

PROPOSALS.

PROPOSALS FOR \$4,300,814.99 GOLD Bonds and Stock of the City of New York.

EXECUTORS, ADMINISTRATORS, GUARDIANS AND OTHERS HOLDING TRUST FUNDS ARE AUTHORIZED BY THE COMMISSIONER OF THE CITY OF NEW YORK, at his office, No. 28 Chambers street, New York, to receive proposals for the purchase of the Bonds and Stock of the City of New York, principal and interest payable in gold coin of the United States of America, of the present standard of weight and fineness, to wit:

1. "Consolidated Stock of the City of New York," issued for various public purposes—the principal payable November 1, 1910.

2. "Consolidated Stock of the City of New York," for a new site and building for the College of the City of New York, and for the purchase of new stock or plant for the Department of Street Cleaning—the principal payable November 1, 1910.

3. "Consolidated Stock of the City of New York," to provide for payments of awards, costs, etc., certified by the Board of Claims and Damages Commission—the principal payable November 1, 1910.

4. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

5. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

6. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

7. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

8. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

9. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

10. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

11. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

12. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

13. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

14. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

15. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

16. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

17. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

18. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

19. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

20. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

21. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

22. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

23. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

24. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

25. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

26. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

27. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

28. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

29. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

30. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

31. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

32. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

33. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

34. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

35. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

36. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

37. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

38. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

39. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

40. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

41. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

42. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

43. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

44. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

45. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

46. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

47. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

48. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

49. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

50. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

51. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

52. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

53. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

54. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

55. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

56. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

57. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

58. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

59. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

60. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

61. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

62. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.

63. "Consolidated Stock of the City of New York," known as "Additional Water Stock"—the principal payable November 1, 1910.
